

Trolley Bell

Craggy Mountain Line official newsletter

Letter from the President

Greetings Everyone,

This past year at the Craggy Mountain Line we had continued blessings in increased ridership, events, and donations. As the year progressed we continued to offer charters and returned to operating our special events such as dinosaur day, fall hayrides, military day, and topping it off with our 11th annual jingle bell trolley ride!

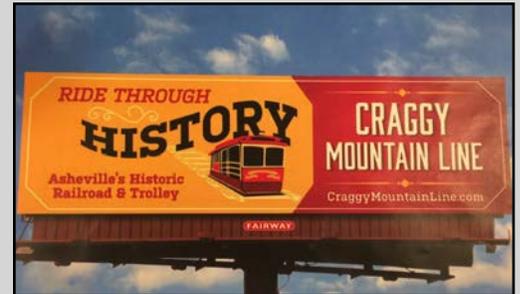

We are looking forward to a great 2023 with our current events, projects and new surprises that we are excited to share.

Be sure to follow us on Facebook, check our website, or drop on by and talk to some of our amazing volunteers. They will be glad to discuss some of our unique historic equipment or answer any questions. You might want to event plan a day and take a ride on the trolley for a scenic ride down mountain, along the river to the beautiful new park at Silver Line Station.

Kind regards,

Rocky Hollifield

Rocky Hollifield

Equipment Spotlight

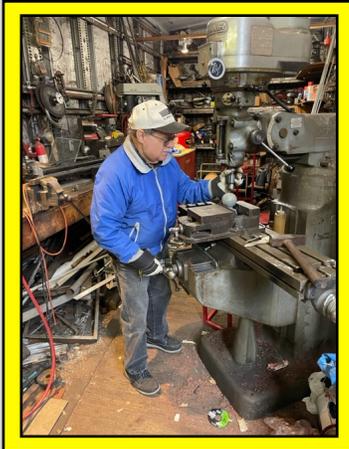

As we begin our season we wanted follow up on our NYC Subway 983.

This car is a 1935 R-6-3 which we acquired in 2013 from a lot in Florida. As of this fall we have completed the main part of the interior. The first 1/3 still server as our ticket office and gift shop. When ready, The rest of the car will present a collection of historic NYC transit items to view.

For more information about these cars or any other projects visit us in person or online at www.craggymountainline.com

The Volunteer Stop

As some know the Craggy Mountain Line is a completely volunteer run organization. We wanted to take a moment to recognize one of our longest volunteers and give a special thanks to Don Kosher for 22 years of volunteering with us!

Through the years Don has become part of the foundation of the company. He is a machinist by trade and uses his craft to create parts for our historic cars that cannot be purchased. He has been a great asset to us in the restoration of these beautiful historic railroad cars.

When asked what he likes so much about the museum he replied he likes the fact that things are always new and different at the railroad. He enjoys riding his motorcar and doing track inspections, he also enjoys participating in events and restoring old railroad equipment. Including bells whistles and other railroad memorabilia.

Don has been with us 22 years and we are so grateful to have him. He is great blessing to our railroad.

Thank you Don!

If you would like to donate to our restoration projects, or just in general, please go to our website and use the donate button. There you may specify a project your contribution will go towards.

Not sure about donating but still want to help? Support is always welcome through rides, charters, memberships, or as a volunteer.

We would like to extend a very special thank you to all those who have donated to the Craggy Mountain line. Your support means so much to us as we continue to preserve and restore our historic railroad and equipment.
